STRIDE ISP 4.2 – PR.AT

Awareness and Training Standards

Version [2.0]

Purpose:

This document defines the Stride standards related to Awareness and Training.

Scope and Applicability

These policies and standards apply to all Stride-owned technology and business operations.

All workforce members and their respective facilities supporting Stride business operations, technology, or both, wherever Stride data is stored or processed, including any third party contracted by Stride to handle, process, transmit, store, or dispose of Stride data are subject to the requirements of this document.

All data, systems, activities, and assets owned, leased, controlled, or used by Stride, its agents, contractors, or other business partners on behalf of Stride are within the scope of the requirements of this document.

The requirements outlined in this document apply where technically feasible and commercially reasonable, as determined by executive management. Any exceptions to these standards must be requested using the approved workflow and remain documented until compliance has been achieved. Exceptions are only granted temporarily for periods of up to one calendar year.

Definitions

All definitions are located within Stride - ISP 1.2 – IT Policy Definitions.

Any inquiries regarding terminology or clarity may be directed to Stride's Information Security Team for assistance.

Publication Owners

Johnny Burns – Point of Contact, Content Coordinator & Author

Jen Havenner – Business Owner

Mark Williams – Executive Sponsor

Document Control

This document may contain proprietary, confidential, or sensitive information owned wholly by Stride Inc. Any distribution of the information contained within this document, in whole or in part, outside of Stride or its subsidiary entities requires the approval of the Executive Sponsor.

This document will be reviewed at least annually and re-issued when revisions are necessary. Any changes introduced in the most recent version are itemized below. Obsolete copies should be destroyed or archived upon the release of the newest version.

Implementation and Compliance

All business units are required to comply with any changes applied to the most recent version of this publication within 90 days from the date of publication.

Change History

Version	Date of Change	Summary of Change(s)
1.0	6/15/2022	Initial Release and Publication
1.1	12/01/2022	- Added Change History - Updated and/or redacted language for clarity where necessary
1.2	03/17/2023	- Updated approvals section
1.3	01/01/2024	- Updated Purpose/Scope/Document Control/Implementation and Compliance - Changed formatting to new standard - Changed document images
2.0	02/06/2025	- Updated Policy to match NIST 2.0 Release Changes (PR.AT-1 and PR.AT-2) - Updated Publication Owners
2.0	03/08/2025	- Published

AWARENESS AND TRAINING STANDARDS

Policy on Awareness and Training:

The organization's personnel and partners are provided cybersecurity awareness education and are trained to perform their cybersecurity-related duties and responsibilities consistent with related policies, procedures, and agreements.

PR.AT-01: SECURITY AWARENESS AND TRAINING

All users are informed and trained.

Standards:

- Stride has established and maintains a robust security awareness program to ensure that all workforce members are equipped with foundational knowledge of cybersecurity principles.
- Security awareness and skills training are tailored to the specific roles and responsibilities of users. Specialized training modules are provided for users based on their access and responsibilities within the organization.
- Training Frequency:
    - Initial training is conducted within 10 days of employment and must be completed within the first month of employment.
    - All workforce members must participate in annual refresher training at a minimum.
- Security awareness training content is reviewed and updated annually, or when significant enterprise changes occur that could impact this safeguard.
- Security awareness training applies to all workforce members, including but not limited to corporate employees, contractors, teachers, school staff, and third-party partners.

PR.AT-02: PRIVILEGED USER TRAINING AND AWARENESS

Privileged users understand roles and responsibilities.

Standards:

Privileged User Training Program:

- Stride ensures that all privileged users participate in role-specific training to understand their elevated responsibilities and the risks associated with privileged access. This training focuses on the following areas:
    - Secure system administration practices.
    - Incident response procedures and reporting.
    - Recognizing and mitigating insider threats.
    - Least privilege principles and separation of duties.

Defined Roles and Responsibilities:

- Roles and responsibilities for privileged users are explicitly defined in organizational policies. Users are required to acknowledge and agree to these responsibilities through a formal Privileged User Acknowledgement form.

Verification of Understanding:

- The understanding of privileged users' roles and responsibilities is verified through periodic training assessments and audits.

- Privileged users are required to demonstrate their understanding of security principles, such as password management, secure configurations, and handling privileged credentials.

Training Frequency:

- Initial training is provided within 10 days of assuming a privileged role and must be completed within the first month of employment in that role.

- Annual refresher training is mandatory for all privileged users to maintain awareness of their responsibilities and updates to organizational policies.

Training Applicability:

- Privileged user training is mandatory for all individuals with elevated access, including corporate employees, contractors, and third-party service providers.
